Use-Case Name: 5.3 Delete Event

Description: This use-case allows the user (owner) to delete a previously added event. The event will be removed from the calendar and can no longer be viewed by the user and the calendar's viewers.

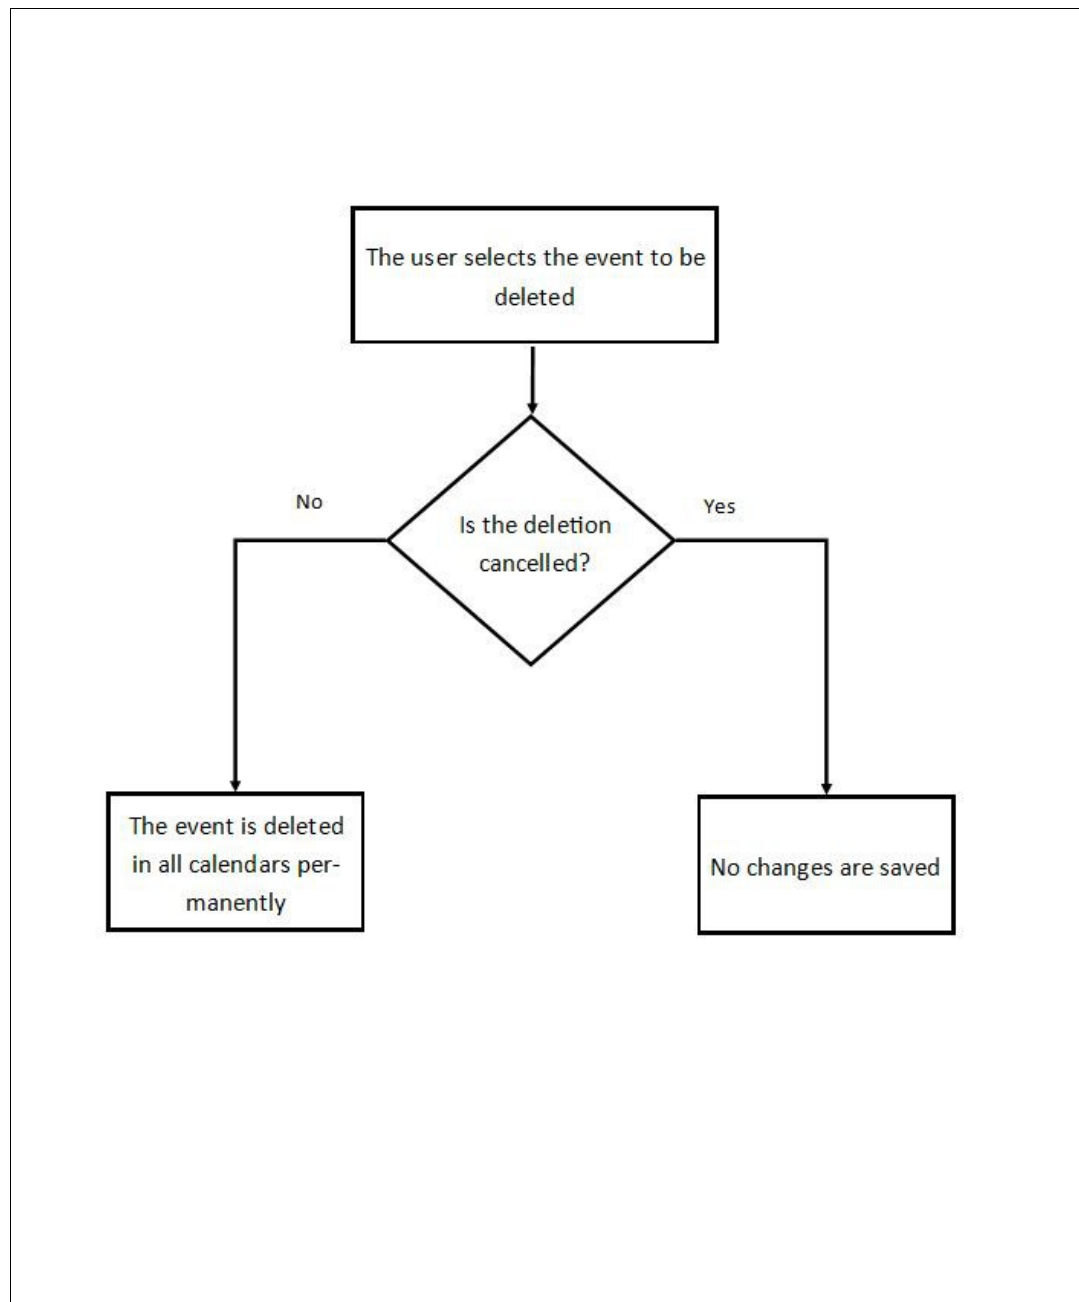

Preconditions:

- The current user already has an account and is currently logged-in.
- The event to be deleted is already created.

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) The user deletes an existing event	1. User selects the event to be deleted. 2. The event is deleted from all calendars permanently.
Scenario 2 The user cancels the deletion of an event.	1. User selects the event to be deleted. 2. If the user cancels the deletion, no changes are saved.

Activity Diagram of the Flow of Events:

Postcondition: NONE

Relationships: This is an extension of use-case 5.0 – Maintain Calendar Events

Special Requirements:
NONE
