for the course
CS 191 Software Engineering I
of the
1st Semester, AY 2016-2017

Revision Control

History Revision:

Revision Date	Person Responsible	Version Number	Modification
12/01/17	Jairus John Garcia	1.0	Initial Document;

Program Specification: `Add Event`

Input:
      `Event Details:`
           `String title`
           `Date startdate`
           `Time starttime`
           `Date enddate`
           `Time endtime`
           `String venue`
           `String description`

Output:
      `None`

Program Logic:

`CREATE event object`

`WHILE event details incomplete or invalid`

      `INPUT title from user`

      `INPUT startdate from user`

      `INPUT starttime from user`

      `INPUT enddate from user`

      `INPUT endtime from user`

      `INPUT venue from user`

      `INPUT decription from user`

`SAVE event`

`UPDATE user view`
